

Dear AAA Members,

This spring and summer just keep getting better and busier with many events!

**Spring Farm Festival, May 13 at the Alice Ferguson Foundation.** Many AAA members will be selling their art at this festival. We invite everyone to visit the AAA booth.

**AAA Member Meeting on Sunday, June 11 from 2 to 4 pm at beautiful Bellevue.** We thank Gene Mirus and Patrick Heydt for the invitation to return to Bellevue. The meeting will include a tour of the historic home and an opportunity to see the exquisite grounds and gardens designed by Patrick. We ask that members bring something that they are working on to share with the group. RSVP at [Accokeekartistsalliance@gmail.com](mailto:Accokeekartistsalliance@gmail.com).

Bellevue is a fine example of an early-19th century plantation house with decorative elements in the Greek Revival style. It was built c. 1840 and exemplifies a house style typical of successful small plantation of the period. It is one of only three surviving examples in Prince George's County of this once-popular Tidewater house style. Bellevue is in excellent condition, and retains its freestanding chimneys with brick pent, as well as a roughly contemporary kitchen wing. It stands on a five-acre, partially wooded lot which exemplifies its original plantation setting. It is an important example of Prince George's County's early architectural history.

**The Accokeek Foundation Fairy Trail will open on June 24.** AAA members have been invited to create fairy houses. Click the link below to sign up. The Accokeek Foundation is requesting that the houses be completed by May 31 (There may be some flexibility). Contact Casey Harlow at [charlow@accokeek.org](mailto:charlow@accokeek.org) or 301-965-9574 with questions.
